CALL FOR PAPERS

Number Theoretic Algorithms and Related Topics

Special Issue in *INTEGERS, Electronic Journal of Combinatorial Number Theory*

In 2004 the workshop on *Number Theoretic Algorithms and Related Topics* takes place in Strobl, Austria. A special issue of *INTEGERS, Electronic Journal of Combinatorial Number Theory* (www.integers-ejcnt.org) is planned to summarize proceedings related to this workshop.

This issue welcomes original research articles in combinatorics and number theory, with a preference for those that have a connection to both fields. Topics covered include Diophantine Analysis, Enumeration Systems, Coding theory and Cryptography, Pseudorandomness and Quasi Monte Carlo Methods, Discrepancy, Fractals, Ergodic Theory and Dynamical Systems.

The guest editors invite you to submit a paper. Prospective authors should follow the guidelines of the journal (see also www.geometrie.tuwien.ac.at/ NumbThAlgo2004) except that they should send a postscript file electronically to *NumbThAlgo2004@geometrie.tuwien.ac.at*. The deadline for submisson is **December 31, 2004**.
